

LA FOLLETTE SAYS PEOPLE AROUSED

Real Contest to Wrest Govern-
ment From Control of Spe-
cial Interests.

HE URGES DIRECT VOTE

(Will Continue Appeals for Sup-
port of Progressive Re-
publicans.

Washington, D. C., January 7.—Senator La Follette, of Wisconsin, upon his return to Washington to-night from an extensive campaign trip through Ohio, Michigan, Illinois and Indiana in the interest of the Republican progressive campaign, said:

"Everywhere the people are aroused. They are determined to have some voice in their government. They understand the real contest to be to wrest our government from the control of the special interests."

"They are not only interested to learn the details of misrepresentation, but entirely in favor of instrumentalities which shall give to them the means to compel real representative government—the nomination of all candidates, from corner to President, by direct vote, the election of United States Senators by direct vote, the initiative, referendum and recall."

"The people recognize that only through the instrumentalities can the increasing concentration of business and political control in the hands of a few men be arrested and effective measures devised and enforced to re-establish the business of the country upon a sound, honest, economic basis of actual value, fair to big business and to small business alike and just to the public."

"It is my intention to continue these appeals to the people to support the progressive Republican cause and to take care of their own interests. I shall return to Ohio, Michigan, Illinois and Indiana, and go West to the Mississippi River to Kansas, Nebraska, Iowa, the Dakotas and Minnesota. I shall also make speaking trips into New England, into New York and other Eastern States."

HIG TRUST IN FORMATION.

London and American Financiers to Exploit Mineral Enterprises.

London, January 7.—Should the \$10,000,000 trust reported to be in formation by a well-known London financier and two powerful American groups to exploit African mineral and financial enterprises, with special reference to Rhodesian mining interests, become a reality, the African World states that it is obvious that its influence on Kaffirs and Rhodesians will be immediate and far-reaching.

Reports are current in the city that the intention to create a diamond share trust is at the back of the big buying movement of diamond shares which has been aggressively renewed the past few days.

The Sunday Observer says that Barnato brothers have been its prime movers all along, and the fact that the buying by them, on behalf of De Beers Company, embraced shares of some less known companies gives a rather definite color to the story. The absorption of the Kofffontein, it says, is a case in point.

"It is, perhaps, difficult to see, in view of the government's controlling interest in the profits," it adds, "how
